

## Technical Brief

# Plan Maintenance/Copy “Base” Component

## Product Facts at a Glance

### SAP Versions

SAP R/3 4.5b, 4.6c & 4.7

### Requirements

SAP Project Systems

Project Management is a primary asset in today's highly competitive market. A controlled baseline plan is essential to manage a complex project. SAP Project Systems delivers the basic components for baseline management. But, it lacks the agility to maintain a baseline and estimate at complete throughout the lifecycle of a project.

If your business has the requirement to control a changing baseline and/or plan multiple Estimates at Complete, please consider this solution.

## THE SOLUTION

This dassian provided enhancement has the flexibility to create and update the baseline and Estimate at Complete versions with the flexibility required in a dynamic environment. This is a base functionality that allows added components based on the companies requirements. It also integrates well with standard functionality and allows for normal reporting and follow-on processing.

# Plan Maintenance/Copy “Base” Component

## CAPABILITIES

This planning functionality provides several pieces of functionality not provided with standard SAP. It works with WBS elements, network activities, and activity elements.

The main functionality is as follows:

- Selection can be by multiple projects, WBS elements, and/or network activities. It will select all items below the selected structure.
- Period range
- Copy from a single source to multiple target CO versions
- Source being Actual Cost or Planned Cost
- Option to calculate labor and overheads
- Option to delete the values within the range selected
- Test run with report showing the updates

This is also a base functionality that allows for the following additional components:

- Change Log
- Plan Date integration with Cost Plans
- Flexible Rate Application
- Update BCWS when updating Cost Plan
- Direct Plan Version Maintenance on Network Activities

## Technical Solution

There are NO SAP modifications as part of this enhancement.

### User Exits/BADI's:

- None

### New Tables and Table Extensions

- None

### New Transactions

- ZDP01\_XPC – Version Maintenance

## THE BOTTOM LINE

If your company intends to manage project plans using SAP R/3 Project Systems, this enhancement should be considered.

## ABOUT dassian PLM Product Development

Dassian, Inc is an approved product development partner. We have been in business for over 5 years providing high quality enhancements to SAP PLM functionality. We have a close relationship with SAP and often partner with their development teams to provide new innovative solutions to customers.

Our customer base is wide, and includes top companies like Pratt and Whitney, Rockwell Collins, Honeywell Aerospace, and Sikorsky Aerospace.

We have a track record of support. We provide an initial warranty with follow-on support for all of our products. We currently provide support to over 100 companies that are using our products. Our support model allows entry of trouble reports into an internet based support network. Based on urgency, it is routed and resolved in a timely manner (often in less than 24 hours).
